EMBARK ON A 360° WOOD CRAFTING JOURNEY

OHF x **TDW**

TDW

“At TDW, our vision is to achieve the perfect balance between tradition and innovation - crafting exclusive wood products that meet the highest aesthetic standards while ensuring sustainability.

With our unique **360-degree production cycle**, we oversee the entire value chain - from raw timber to the finished product.
We are not just a manufacturer - we are a creative and strategic partner for architects, designers and builders.
Each project starts with the meticulous selection of the ideal wood, perfectly tailored to our clients’ unique requirements and vision. This customised approach results in unique, character-rich solutions that go well beyond the ordinary.

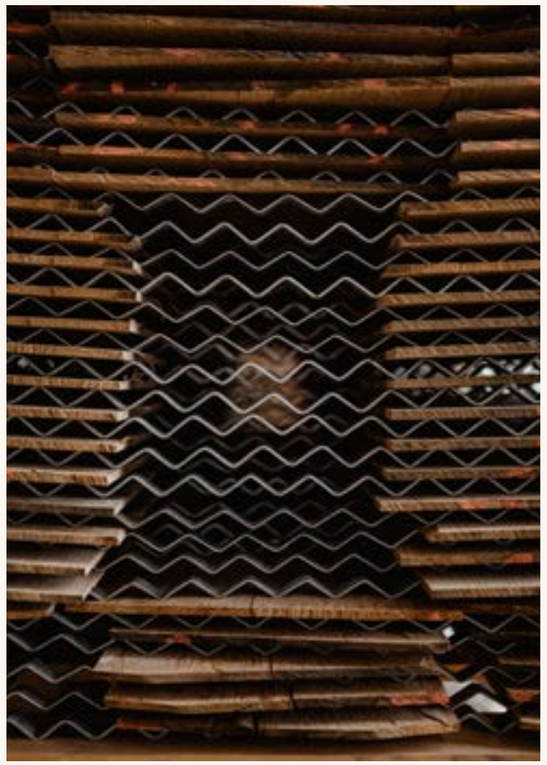
Our ambition is to further develop TDW into an international premium brand through strategic partnerships, uncompromising quality and visionary innovation.

The fusion of **Osenstaetter Holz & Furnier (OHF)** and **TDW** lays the foundation for our continuous growth and sets new benchmarks in the wood industry. Since 1982, our headquarters in Schongau, Germany, has been the hub where craftsmanship and forward-thinking design meet in perfect harmony.”

Nico Osenstätter - CEO

REDEFINING EXCELLENCE

WOOD PROCESSING AND FLOORING DESIGN



OHF | PHASE 01

TDW | PHASE 02

FROM THE WOODS TO THE PRODUCT

UNIFYING EXPERTISE

CRAFTING QUALITY FROM START TO FINISH

With over 40 years of experience and in close cooperation with OHF, TDW combines in-depth industry knowledge with a strong network in the wood industry.
This unique synergy sets our products apart. Our 360° in-house production cycle ensures a seamless transition from raw materials to the final product - guaranteeing the highest quality.

We strive to meet the utmost quality standards, offering the most exclusive hardwood flooring and interior elements. Our in-house collaboration ensures a seamless quality process from the woods to the (finished) product, resulting in products that are not only unique but also of unparalleled quality.

TRANSFORMING

RAW WOOD INTO A FINISHED PRODUCT

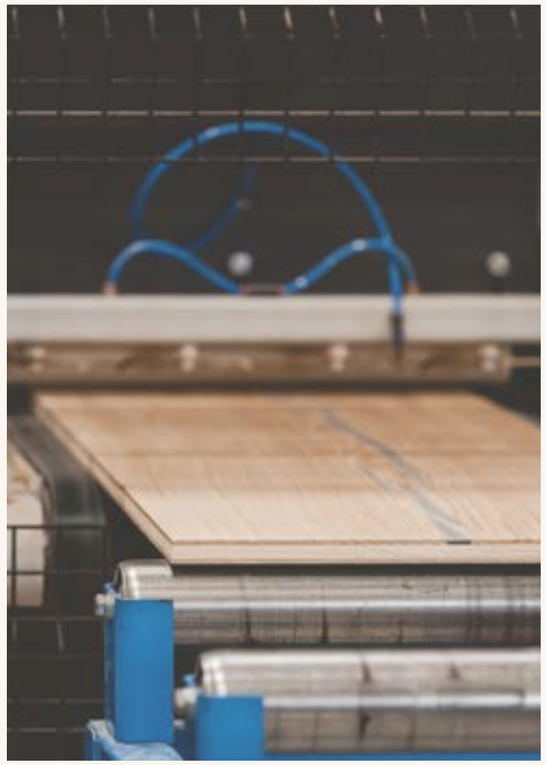
A curated range of wooden products crafted with meticulous attention to quality and detail.
From floorboards to interior elements, we offer a product range that ensures all wooden elements in a room work together harmoniously and create a unified aesthetic.

Every phase of the value chain, from the selection of the tree, the first cut to the last detail, is executed with exceptional care in-house ensuring all wooden components work together seamlessly.
Our experts are committed to processing every timber in the most efficient and sustainable manner, providing an extensive array of design possibilities.

ENGINEERED
FOR
EXCELLENCE

FLOORING

COLLECTIONS THAT REDEFINE SPACES



Our flooring collections offer a diverse range of designs to suit various aesthetic preferences.

Each floorboard is crafted for lasting quality and visual appeal. With multiple installation techniques available, our collections inspire creativity, allowing clients to curate unique, personalised spaces.
At the heart of these collections are our signature TDW Infinity Floorboards, available in lengths of up to 14 meters. These floorboards redefine elegance and sophistication, offering a seamless, expansive aesthetic that transforms any space.

Flooring that transcends the ordinary.

AGED COLLECTION

BESPOKE FLOORING

A PROFOUND APPRECIATION FOR THE BEAUTY OF IMPERFECTION

Through our ageing process, we breathe new life into the wood, revealing its true essence.

The outcome is flooring and interior elements brimming with character and suffused with an almost mystical depth.

Head-to-Tail Philosophy

As global resources face increasing strain, we remain committed to maximizing every part of each valuable tree.

Our process utilizes the entire tree - selecting the finest sections for visible surfaces while repurposing the rest for structural integrity. Our thoughtful engineering and top-quality production make this product truly one of a kind.

INTERIOR ELEMENTS

CRAFTING COHESION IN DESIGN

Our collections feature bespoke door solutions that seamlessly integrate with any interior, creating fluid transitions between spaces.

Our wall, ceiling and acoustic panels infuse warmth and charm into every room, offering not only visual appeal but also acoustic advantages. We design sophisticated stair concepts that harmonize style and safety effortlessly. To complete every interior vision, we offer accessories such as elegant baseboards and custom radiator grilles, ensuring a cohesive overall aesthetic where every wooden element is perfectly coordinated.

TAILORED SOLUTIONS

EXPERIENCES FOR EVERY SPACE

TDW delivers design solutions tailored to meet the unique preferences and requirements of our clients. Whether for private or commercial projects, regardless of scale, we create products that beautifully reflect our customers' visions.

Through the fusion of traditional craftsmanship and cutting-edge technology, we create distinctive wood flooring and interior elements known for their superior quality.

UNCOMPROMISING QUALITY

DISTINCTIVE CRAFTSMANSHIP

Our exclusive, innovative product lines are designed in-house by our expert teams.

These collections reflect the TDW Trademark - defined by uncompromising quality and our complete 360° in-house manufacturing process.

AN EXTENSIVE VARIETY OF PREMIUM WOOD SPECIES

We source logs directly from the forest for all our products, ensuring quality and sustainability.

Our diverse selection include sought-after wood species ideal for a wide range of projects.
European oak predominates, offering unlimited design possibilities. Our goal is to consistently provide the finest options to meet the specific needs of our clients.

COMMITMENT

TO A SUSTAINABLE FUTURE

We recognize the critical importance of high-quality products while minimizing environmental impact, a commitment vital to the future of our industry.

At TDW, we utilize natural, oxidatively curing oils to enhance product quality and promote a healthy indoor environment. Our dedication to sustainability is evident in the production of durable products and finishes that endure over time, reduce waste, and elevate the aesthetic of any space.

We are firmly committed to achieving climate-neutral production. Our dedication to sustainability is evident in significant investments, including a highly efficient solar park at our headquarters and production facility in Schongau, Germany.
